

# Competency Focussed Skilled Labour Supply

We take the risk of onboarding staff with you!

## AWCC have done the field research and "We Hear You"

In this climate of Quality Training and Compliance along with Changes to Industrial Manslaughter Laws not only in QLD but Nationally, Company Managers need to be supported in onboarding quality staff who are fully compliant and work ready. The big question is, "who's going to pay"? There are no guarantees that staff will stay once trained and the cost of staff attrition in the Energy Sector alone is proving to be crippling for some organisations with tight budgets. As mentioned above, AWCC Hear You and strongly believe that we have a viable and cost-effective solution!

AWCC Supplies Skilled Labour to a number of companies within the Energy, Mining and Construction Industries. The Labour Services and Training provided have been specifically designed around what each company contractually needs to maintain manning levels along with their specific training and compliance requirements.

## What Makes AWCC's Labour and Training Services Different?

AWCC is an Approved Program Provider of the (ISI) Industry Safety Induction in QLD and have aligned its training objectives with Safer Together's CIC program recommendations to ensure that all candidates undertake quality training at our purpose built onboarding facility in East Brisbane.

Our systems and initiatives are reaping great rewards for our clients and we invite you to turn over and review some of our recent real case studies showing the uniquely positive difference that AWCC is making. For a more detailed explanation on cost saving.
